this morning. He is accompanied by three or four days more. Mrs. Single and they expect to reach the capital within 12 or 13 days.

Mr. Shingle goes to urge upon ad-ministration officials the necessity for speedy action to give Honolulu the long-needed and long-discussed federal building.

He will advocate first the Mahuka site and if he finds that there is no chance for this site, he will then advocate the Spreckels site. He goes to Washington with the Spreckels site "in his pocket," so to speak, in such a form that it amounts practically to an option. The figure, it may be stated on good authority, is far below what the Mahuka site will cost.

What Mr. Shingle learns in Washington, the attitude of the department officials and Congress, and the probabilities and possibilities, will be placed before the community, interested par-

Shingle, was booked for the Ventura, leaving here next Friday, but by speeding up his arrangements was able to take the Korea. News of his mission became public vesterday after-noon and furnished the theme for much discussion. Before sailing this morning, he confirmed the report that he is going on Mahuka site business. To Meet Spreckels.

In San Francisco he will meet Ru-dolph Spreckels, an appointment having been made by cable, and talk over matters with him. He does not expect to stay in the coast city more than two days. Negotiations with the Spreckels interests have been under way for some two months and it is not expected that there will be much more discussion needed to close up the Spreckels site proposition in such form that it can be presented to pied the witness stand today in Cir-Washington as a concrete program in cuit Judge Robinson's court, the mis-

BEST TARGET RECORD FOR COAST ARTILLERY MADE AT KAMEHAMEHA

Of the 170 companies of coast ar tillery in the United States army, the 68th and 143rd, stationed at Fort Kamehameha, have been found the most proficient in the target practice of 1913, and to them has been awarded the Knox coast artillery trophy, given each year to the companies manning the battery that makes the best record. The 68th company is commanded by Capt. G. A. Taylor, and the 143rd at the time of firing by Capt. H. J. Hatch. Major Frank Coe was fire

The splendid work done by Battery Hasbrouck, the battery of quick-loading mortars at the Pearl Harbor artillery post, was the subject of much local commendation at the time, and it was thought that the battery had a good chance of being first when the percentages were computed. The other coast defense guns and mortars of Oahu also did well, according to the official figures. Battery Hasbrouck's record was 10 hits out of a possible 20 for the first practice, and 14 out of something of much value will yet 20 for the second, at about 10,000 come from Doctor Friedmann's disyards range.

The Knox trophy is the gift of the society of the Sons of the Revolution in Massachusetts. It consists of two shields, mounted on a frame 2 feet 11 inches by 2 feet 3 inches, the whole weighing 28 pounds. One medallion is a relief portrait of Henry Knox, father of American artillery, and the other depicts Ticonderoga.
